Installing the Campaign Finance Software

System Requirements

✔ At least 13 megabytes of available hard drive storage space
✔ Windows 98 or above
✔ 64 megabytes of RAM
✔ Printer

Installing from the Internet

**NOTE:** Some images may differ from what is shown, depending on what version of windows your computer uses.

Open your Internet browser (Microsoft Internet Explorer, AOL, Netscape, etc). Go to the CF Solutions Software page at:

http://cfsaz.com/PimaSoftware.htm

Read the End User License Agreement, and if you agree and wish to use the software, click “Accept” to download it. If you do not agree to the End User License Agreement, you must not use the software.
Depending on your version of Windows, a pop-up window will show options for “Open”, “Run”, “Install from Internet” or “Cancel”

Choose “Open”, “Run” or “Install from Internet”
**Do not “Save” or “Save to disk”**

To continue the installation click **Next**

Read the license agreement and select “I accept the license agreement”

Click **Next**
Enter your user information and click Next:
Select the folder location to install to (we suggest using the default that the installer provides). Click Next:

On the next screen, click Install:
On the next screen, click Finish:

![Image of Setup Wizard with Finish button]

The current version of the Campaign Finance software is now installed on your computer. There is also a new Icon located on your desktop allowing you to open the Campaign Finance software from your desktop.

For software operation and set up refer to Software Setup (page 10)
Software Setup

Running the CFS Program

Double-click on the CFS AZ icon on your desktop.

This is the main window.

Your committee name will not be shown on the title bar unless you have set up your committee. See the section entitled Setting Up a Committee for instructions.

Changing System Preferences

All system preferences are changed in the Preferences window.

In the main window, click on File, Preferences.
The Preferences dialogue box appears.

![Preferences Dialogue Box]

### Changing General Options

Click on the **General** tab of the preference window.

![Preferences Dialogue Box (General Tab)]

The General options appear.

![Preferences Dialogue Box (General Options)]

### Options:

**Showing/Hiding The Status Bar**
The status bar shows useful period information on the bottom of the screen. You may need to set the current period to get it to display period information. To show the status bar, check the box marked **Show Status Bar** by clicking on it. To hide the status bar, uncheck the box by clicking on it again.
Showing Balances
Balances columns can be displayed for the accounts list, and in individual account windows, if desired. To show balances in individual account windows, check the box that says **Show Balances in Transaction Lists**. To show balances in the accounts list, check the box that says **Show Balances in Account Lists**.

Confirmation Sounds
Sounds confirm transactions by an audio beep. Putting a check in this box will enable this feature. Leaving it blank will prevent a beep when confirming a transaction.

Changing the System Printer
Reports other than period reports are automatically routed to the printer selected in the Preferences window. Follow these steps to select a printer:

Click on the **Printers** tab of the preference window.

The Printer options appear

The Default Printer options appear. If the name of your printer is not shown, select by clicking on the drop down arrow and selecting the correct printer.

Click **OK**.

If you don’t see the printer you wish to use, you may need to install it first. Consult the documentation for your operating system for instructions on how to do this.
Changing Startup Options

Click on the **Startup** tab of the preference window.

The Startup options appear

**Options:**

**Splash Screen**
If you wish to view a splash screen that shows the version number of the software while waiting for the software to load, click the box that says **Show Splash Screen**.

**Window Restore**
When you close and re-open the software, the program is capable of remembering which windows you have open, along with their size and position. If you would like to turn on this option, click on the box that says **Restore size and position of windows**.
Enabling and Disabling Warning

Click on the **Warnings** tab of the Preferences window.

The Warnings options appear

Setting Up a Committee

NOTE: We suggest you have your committee’s Statement of Organization in front of you when setting up your committee in the software.

Start the software if it is not already running.

In the main window, click on File, New Committee.

The Committee Properties window appears.

Begin setting up your committee by entering the Filer ID # assigned to you when you registered your Statement of Organization at the Arizona Secretary of State’s office.

Use the pull-down arrow for Type to select your committee type.

Continue to fill out the rest of the form, using the TAB key to move between fields on the form. Click on Continued tab.

Fill in the fields for the section, then continuing to the next sections; Chairman, Treasurer and Designee. Complete all screens until you have all the information from the Statement of Organization in the sections pertaining to your committee.

Click Finish when you are done.
Changing Committee Information

At some point you may need to change some of the information regarding your committee. If your committee files with the Secretary of State, then changing this information is a two-step process: 1) change the information in your database using the CF software. 2) print and file an amended Statement of Organization. The CF software will print out a completed Statement of Organization for you. See Printing an Amended Statement of Organization (page 41) for instructions.

In the main window, click File, Committee Properties

The Committee Properties window appears

Select the tab that holds the information you want to change. For example, click on the Treasurer tab to change the treasurer’s address.

Type in the changes in the appropriate fields, and when you are done

Click Finish.
Changing The Filer Identification Number

The filer ID cannot be changed in the committee information window.

In the main window click on **File, Committee Actions, Correct FilerID**

The Correct FilerID window will appear

![Correct Filer ID Window](image)

Type in the corrected filer identification number

Click **OK**
Working With More Than One Committee

Treasurers that work on behalf of more than one committee may wish to record transactions and report from just one computer. The campaign finance software facilitates record keeping for multiple committees.

Setting Up Subsequent Committees

Follow the instructions in the section entitled Setting Up a Committee (page 15) for each committee you wish to set up.

Switching Between Committees

The software has only one ACTIVE committee at a time. This is the committee whose name appears on the title bar of the main window. To switch the attention of the software to a different committee:

In the main window click on File Open Committee

The Committee Select window appears

Double-click the committee that you wish to make active

The selected committee now becomes the active committee. The active committee name appears on the blue title bar. All changes, transactions and reports will regard only the active committee. You may switch between committees at any time you wish.
Deleting a Committee

Deleting a committee is a non-reversible action. Make sure that you back up the final version of the committee information for your records before you delete a committee. See the section called Backing Up Your Data (on page 29) for instructions.

In the main window click on File, Delete Committee

The Committee Select window appears

Double-click on the committee you wish to delete

A Confirm window appears

Click Yes
Clearing All Data

It is strongly recommended that you backup your existing data before clearing it. To find out how to do this, consult the section entitled Backing Up Your Data (page 29) for instructions.

Clearing All Transactions

This function clears all the transactions currently in the database, without clearing any names.

In the main window click File, Committee Actions, Clear All Transactions

A confirm window appears

Click Yes

If you have already backed up your data click No. Otherwise, backup your data now by clicking Yes
Clearing All Names And Transactions

All names in the database can be cleared at the same time as the transactions.

In the main window click on **File, Committee Actions, Clear All Names & Transactions**.

A confirm window appears

Click **Yes**

If you have already backed up your data click **No**. Otherwise, backup your data now by clicking **Yes**.
Exporting And Importing Names

Exporting Names

In the main window, click on **File, Committee Actions, Export, Names**

The Export data window appears

Choose where you would like to store the export file

Click **Save**

Importing Names

Name lists can be imported from text files. Use an Exported Names file as a template for importing names.

Once a data file has been created, it may be imported into the CFS database. It is strongly recommended that you back up your data before importing data. See the [Backing Up Your Data](#) (page 29) section for instructions.

In the main window, click **File, Committee Actions, Import, Import Names**
Import Tab Delimited Names File window appears

Click on Browse

The Restore data file window appears

Select the drive the prepared file is on by clicking the “Look in:” pull down arrow

Double-click on folders and sub-folders in the window, following the path to the prepared file

Double-click the name of the prepared file
Click **Import**

A prompt appears asking if you want to back up your data. If you have already backed up your data click **No**. Otherwise, backup your data now by clicking **Yes**.

The import function protects against duplicate names. If a name in the import file already exists in the software, the function will produce a window that asks whether or not you would like to replace the existing name with the new name or just discard the new name.

When the import is complete

Click **Close**
Changing Election Cycles

Applicable laws:
A.R.S. § 16-905(H)                   Contribution Limitations; civil penalty, complaint
A.R.S. § 16-915(A)                   Contents of campaign finance reports
A.R.S. § 16-915.01(A)(1)&(C)        Disposal of surplus monies; transfer of debt

If a candidate committee or an exploratory committee is to continue operations in a subsequent election cycle, the committee may choose to:

- Pay off all loans and debts owed by the committee
- Collect all loans and debts due the committee
- Open a new committee for the new election cycle
- Transfer surplus money to the new committee
- Terminate the previous committee

The names list can be exported from the old committee and imported into the new committee in order to avoid re-entering information. See the section Exporting And Importing Names (page 22) for instructions.

If the old committee does not have enough cash on hand to retire the debts, the debts can be transferred to the new committee as allowed by A.R.S. § 16-915.01(C).

Alternatively, the committee may remain active until it receives funds to retire the debts and can then terminate. In this case, either:

A) Campaign finance reports must be filed in a timely manner for the committee as required by A.R.S. § 16-913(B or C) until the committee is terminated,

Or

B) Pursuant to A.R.S. § 16-913(E), a candidate committee may file an Annual No Activity Statement by January 31 of the election year. If this option is exercised, the committee does not report until the next year, unless a contribution or expenditure is made.

Transferring a Committee’s Previous Surplus

A Note About Previous Surplus
The surplus from a committee’s previous election cycle will be the amount of cash the previous committee had on hand at the end of the last reporting period of the previous election cycle. You can find this amount on line 7 on the first page of the final period report from the previous election cycle. Surplus from Previous Campaign account (account #620) is the internal account that holds the surplus.
from the previous campaign. Entries to this account can be viewed and edited. See the section on Viewing and Editing Account Entries (page 31) for instructions.

**Recording Previous Surplus**

In the main window, click **Transactions, Previous Committee, Set Previous Campaign Surplus**.

The Enter Surplus From Previous Campaign window opens.

Enter the surplus amount

Enter the date the surplus was transferred

Click **OK**

---

**Transferring Previous Debt**

A **Note About Previous Debt**

Outstanding Debt from Previous Campaign account (account #630) is an internal account in the software that holds the debt carried over from the previous committee and payments on those debts. Entries to this account can be viewed and edited. See the section on Viewing and Editing Account Entries (page 31) for instructions.

**Note**: Outstanding loans from the previous election cycle are recorded as previous debt in the current cycle.

**Recording Previous Debt**

In the main window, click **Transactions, Previous Committee, Enter Previous Debt(s)**

The Enter Transferred Debt From Previous Committee window opens.
If the committee has been previously used, select the committee name from the list by clicking the pull-down arrow at the From box. Otherwise, add the committee:

Type the committee name in the From box

An Information window appears asking if you would like to add the committee to a list

Click OK

The Vendor window appears

Fill out the boxes in the window, pressing the TAB key between fields

Click OK
The entity is now added to the appropriate list, and the Enter Transferred Debt From Previous Committee window is once again active.

Finish filling in the Enter Transferred Debt From Previous Committee window, pressing the TAB key between fields.

Click **OK**

**Transferring Previous Loans**

A note about Transferring Previous Loans
Outstanding loans become debts as the election cycle changes. Follow the instructions for **Transferring Previous Debt** (page 26) to transfer any outstanding loans. To repay the loans, see the section titled **Loans, Repayments and Interest** (page 82).
Backing Up And Restoring Data

Backing Up Your Data

A backup can be done at any time, and can never be done too often. It is important to safeguard your data against accidental erasure, hardware failures, and any other unforeseen dangers. Backing up often ensures that you always have a current copy to fall back on, should anything happen to the original data. Backing up is easy, and only takes a few moments.

You may wish to give the backup file a meaningful name. Including the date of the backup or the committee name in the name of the file may help you locate the file later. Backup files from the CF software have a file extension of `.cfb`.

Most commonly, a backup file would be stored on a removable magnetic media such as diskette or zip cartridge. Other options would include CD-RWs or CD burners, Jump drives, network drives and secondary hard drives.

In the main window, click **File, Database, Backup**

The Backup data file window appears

![Backup data file window](image)

Click on the **Save in** pull down arrow

![Save in pull down arrow](image)

Click on the drive you wish to store the backup file in (in this case, the A: drive is used)

If you wish to store the file in a folder or subfolder on the drive, double click that folder in the window

Enter an appropriate name in File name

Click **Save**
Restoring Back Up Data

Restoring replaces all data that is currently in the database with data that has been backed up previously.

In the main menu, click **File, Database, Restore**

A Confirm window appears

![Confirm window](image)

Click **Yes**

The Restore data file window appears

![Restore data file window](image)

Click on the **Look in** pull down arrow

Click on the drive that the backup file is in (in this case, the A: drive)

If the file is in a folder or subfolder on the drive, double click those folders in the window

Double-click on the backup file to restore the data
Viewing and Editing Account Entries

Viewing Accounts and Their Balances

Transactions are entered into the database using techniques described in the section entitled Entering Common Transactions (page 49). Each transaction increases or decreases the balance of one or more accounts, or lists of transactions in a particular category.

In the main window, click on Lists, Accounts

The Accounts List window appears

The window shows the account number, name and type. It may also show the current balance for each account if the option is selected in the Preferences window. See the section entitled Changing System Preferences (page 10) for instructions.
Viewing Transactions In An Account

In the main window, click **Lists**, **Accounts**

The Accounts List window appears

![Accounts List Window](image1)

Double click on the account to be viewed in the Accounts List Window. A window specific to that account appears.

![Transactions Window](image2)
Deleting A Transaction

In the main window, click **Lists, Accounts**

The Account Window Appears
Double-click on the account that holds the transaction you wish to delete. For example, if you have erroneously entered an invoice and need to delete the entry, double-click on Accounts Payable (shown below).

When the transaction window appears, click on the transaction you wish to delete to highlight it.

Click **Delete**

A confirmation window appears

Click **OK**
Editing Transactions

In the main window, click **Lists, Accounts**

The Account Window Appears
Double-click on the account that holds the transaction you wish to edit. For example, if you have received an amended invoice and need to edit the original invoice entry, double-click on Accounts Payable (shown below).

![Image of Accounts Payable window]

When the transaction window appears, double-click on the transaction you wish to edit.

Enter Bill for Goods or Services window appears

![Image of Enter Bill for Goods or Services window]

Update the applicable information

Click OK

✅ OK
Names are not stored with transactions. Rather, a pointer to a name is stored, thus many transactions may have pointers to a single name. Once a name or information about a name is changed, it is changed for all transactions that have pointers to that name. This is a very convenient arrangement compared to changing information for a name in every single transaction in which it occurs. However, this situation implies that a name cannot be deleted if it is used in one or more transactions, because those transactions would then be left without a name attached to them.

Names are being added to the database.

While transactions are entered using techniques described in the section entitled "Entering Common Transactions" (page 49), names are being added to the database.

The Names List window appears. Note the tabs across the top.

By default, the All Names page is selected and shows all the names in the database and their type. The total number of names is shown at the bottom. If you would like the list to show only names from a certain category, click on the tab with that category name.

In the main window, click Lists, Names.
In the Names List window, double-click on the name you wish to edit

The appropriate information window appears. For instance, if you click on an individual, the individual window appears. Click on the information you wish to change, then type in the new information.

Click **OK**

### Deleting Names

In the Names List window, double-click on the name you wish to delete

Click **Delete**
If the name is not used in any transactions, the **Confirm** window appears.

Click **Yes**
Adding Names

In the Names List window, click Add at the bottom of the page.

The Select Name Type Window appears.

Select the Name Type of the name that you would like to add.

Click OK.

The appropriate window will appear so that identification information can be entered for that entity. For example, if you select individual in the Select Name Type window, the Individual window will appear.

Fill in the information in the window, pressing the TAB key between fields.

Click OK.
Reporting

Printing an Amended Statement of Organization

To find out how to record changes in committee information, read the section called Changing Committee Information (page 16). After making changes, print out the amended Statement of Organization.

In the main window, click on Reports, Statement of Organization

A window opens to select the printer

Click Print
Creating Period Reports

In the main window, click on Reports, Report for Filing

The Report Selection window appears

Electronically Filing Reports

In the Report Selection window, click File Electronically. After performing a check for any limit violations, the Filing Credentials window will appear.

Enter the User Name and Password that was previously arranged with the county, and click OK. A confirmation screen appears:
Click **Send Filing**, and you will either receive a filing confirmation indicating success or an error screen.

### Printing or Saving Pre-defined Reports

With the Pre-Defined Report radio button selected, select the report from the list supplied by double-clicking on it. The Report Setup screen appears:

On this screen you can either chose to send the report to a printer, to the screen to preview it, or save it to a file on your computer. If you want to change the printer that is displayed at the top of the screen, click the Setup button on the right.
Custom Reports

Select a custom report by clicking the button for custom reports.

The Report Selection window changes to look like this:

![Report Selection Window]

Enter the first day of the election cycle. Transactions from this date forward will be included in the report, on a cumulative basis if they occur before the period of the report.

Enter the first and last day of the reporting period, and a report name and Filing Period description if any, pressing the TAB key between fields.

Click Run

The Period Report Setup window appears
Printing the Report

If you do not see the printer that you wish to use in the window, click the Pull-down arrow and select the printer from the list by clicking on it.

Click **Print**

The report begins printing immediately

**Previewing the Report**

In the Period Report Setup window

Click **Preview**
The Period Report Preview window appears.

Click on the buttons described above to navigate and view the report.

When done, click Exit.

Entering Common Transactions

Recording Transactions According to Law
A.R.S. § 16-904 outlines the duties of the committee treasurer and A.R.S. § 16-915 defines the contents of campaign finance reports. These two laws provide the need and method of reporting the transactions found in this section. If you have questions about what transactions to report or why you should report a transaction, please refer to Title 16, Chapter 6 of the Arizona Revised Statutes.

Entering Transactions For A Previous Period

You are attempting to enter data outside of the current period if you see this warning:

There are two ways to gain access to periods beyond the current period: 1) change the current period or 2) turn off the period checking. See the section entitled Enabling and Disabling Warnings in Changing System Preferences (page 10) for instruction on how to disable period checking.
Setting the Current Period

Sometimes committees will need to amend previous reports and enter transactions that were omitted or incorrectly entered in a previous filing period. This should be avoided whenever possible.

In the main window, click on **File, Set Current Period**

The Period Selection window appears

Receiving Contributions

A Note About Receiving Contributions

There are limits to how much individuals or committees may contribute to a committee. See the contribution limit chart in this handbook or go to the Secretary of State web page at http://www.azsos.gov/cfs/library.htm for updated contribution limits as defined by A.R.S. § 16-905.

If a check is drawn on a joint account, the contributor is the person who signed the check. A.R.S. § 16-904(F) defines this, with the exception: “unless specified by the contributor(s) to the contrary”.

Enter the date that the contribution was received by the committee.
Contributions From Individuals

Notes About Individual Contributions

If your committee is a ballot measure committee, all “single source” contributions as defined in A.R.S. § 16-914.01(E) will be entered here.

If a contributor donates $25 or less, and they may contribute again later in this election cycle, record their contribution using the “Contributions from Individuals/Personal/Family contributions”. When you know the contributor will only be contributing once, record their contribution using “Small (Aggregate $25 or less)”. The cumulative total of contributions made by every individual must be recorded per A.R.S. § 16-904(E). Keep track of who has contributed how much is to record them as contributions from individuals.

If a married couple makes a contribution, make two entries. Ask what each person’s share is of the contribution.

In the software, there is an internal account (account #210) for contributions from individuals and refunds of those contributions. Entries to this account can be viewed and edited; see the section on Viewing and Editing Account Entries (page 31) for instructions on how to do this.

Contributions From Committees

Notes About Committee Contributions

A.R.S. § 16-905(H) mandates that candidate committees and exploratory committees may not make contributions to other candidate or exploratory committees.

There are two different contribution limits for two distinct types of committees. A committee that is commonly referred to as a “PAC” (Political Action Committee) is actually a non-candidate committee, as defined in statute and gives at the lower limit. A “Super PAC” is a PAC certified by the Secretary of State to give at the upper limit. See A.R.S. § 16-905(A)(B) for contribution limits. The Secretary of State adjusts these limits biennially.

The requirements needed by a committee to be a Super PAC are listed in § 16-905(I). Copies of a Super PAC’s certification from the Secretary of State must accompany any contributions from those committees.

In the software, there is an internal account (account #220) for contributions from committees and refunds of those contributions. Entries to this account can be viewed and edited; see the section on Viewing and Editing Account Entries (page 31) for instructions.

Recording Committee Contributions

In the main window, click on Transactions, Contributions, Committee, Receive

The Receive Political Committee Contribution window appears
If the contributor is already in the names list click the pull down arrow ▼ in the From box and choose the name.

If this is a new contributor, a confirmation window appears to find out if you would like to add the committee to the list of contributors.

Fill out the required information, pressing the TAB key between fields.

Click OK.

Back in the Receive Political Committee Contribution window, enter the date and the amount of the contribution, and any other information for that transaction.

Click OK.
Small (Aggregate) Contributions (Of $25 or Less)

A Note About Small Contributions

If a committee is to receive small contributions from several individuals, the total sum of contributions from all of the individuals can be recorded here. Examples of this would be entering the total revenue from a fundraising dinner or a T-shirt sale where the cost of the items or service is $25 or less. When using this function, it is important to document the transaction in the memo line so that the committee can explain the contributions if asked to do so. For example, the committee may note “100 T-shirts @ $15.00 per shirt.”

A.R.S. § 16-904(E)(2) mandates that the treasurer of a committee must keep identification records for all contributors, no matter how small the contribution. For small contributions, this is usually done with a 2-part receipt book or a separate journal. Keep in mind that these records, although not reported to the filing office with period reports, may be requested at any time.

This function is used to record contributions of $25 or less from contributors whose cumulative contributions are $25 or less. If a contributor will contribute to a committee on more than one occasion, these contributions should be recorded as Contributions from Individuals or Contributions from Committees, not small contributions. This is an easier way for the committee to ensure that the aggregate sum of contributions received from that contributor has not exceeded the $25 limit. Cumulative reporting is required for contributions.

In the software, there is an internal account (account #200) for contributions of $25 or less. Entries to this account can be viewed and edited; see the section on Viewing and Editing Account Entries (page 31) for instructions.

Recording Small Contributions

In the main window, click on Transactions, Contributions, Small (Aggregate $25 or less)

The Receive Contributions of $25 or Less window appears

Enter the date the contribution was received, the aggregate amount of the contribution, and any remarks, pressing the TAB key between fields.

Click OK
In-Kind Contributions

A Note About In-Kind Contributions and Expenditures

Pursuant to A.R.S. § 16-901(15), in-kind contribution means a contribution of goods or services or anything of value and not a monetary contribution. In-kind contributions must be reported at the fair market value, or the amount that the general public would pay for the same goods or services.

**Contribution limits as described in A.R.S. § 16-905 apply to in-kind contributions.** Keep in mind that the Secretary of State adjusts the limits and levels in this statute biennially. Consult the Campaign Finance Web page at [http://www.azsos.gov/cfs/library.htm](http://www.azsos.gov/cfs/library.htm) for current limits.

In the software, there is an internal account (account #500) for in-kind contributions. This account holds all of the in-kind contributions received in the current election cycle. There is a sister account (account #510) that holds all the expenditures of in-kind contributions.

**Receiving an in-kind contribution is actually a two-part process,** if the contribution is received, and then it is expended. It may be expended as soon as it is received (e.g.: limousine ride during current reporting period), or it may be expended in part or in whole in some upcoming reporting period (e.g.: a contributor gives something that cannot be used until the next reporting period). Either way, there are at least two separate entries to be made: One for the contribution in account #500, and one or more for the expenditure in account #510. Both of these entries can be made at the same time by checking the box in the *Receive In-Kind Contribution* window that says *Expend Immediately*. To find out how to expend an in-kind contribution at some point in the future, see the section titled *Expending In-Kind Contributions* (page 74) for instructions.

Recording In-Kind Contributions

In the main window, click on Transactions, Contributions, In-Kind

The Receive In-Kind Contribution window appears

Refunding Contributions

Applicable Laws: A.R.S. § 16-905

A Note About Refunding Contributions

If a committee receives a non-acceptable contribution from an entity, they should immediately refund the contribution (or the part of it that causes it to be non-acceptable).

Refunds are stored in the same accounts as their corresponding contributions. They can be viewed and edited. See the section on Viewing and Editing Account Entries (page 31) for instructions.

Expenses, Payments, and Credits

When a committee purchases goods or services, an expense is incurred. When expenses are incurred, the Operating Expenses account (account #700) increases. If the expense is paid for at the time it is incurred, the Committee Equity account (account #100) decreases. If the goods or services are purchased on credit, the Accounts Payable account (account #400) increases.

Entries to these accounts can be viewed and edited; see the section on Viewing and Editing Account Entries (page 31) for instructions.

Paying For An Expense As It Is Incurred (Record Expenditure)

To record an expense and debit the committee equity account at the same time, use the Record Expenditure function. This function is only used to record payments made when goods and services are received, not to pay on bills for goods and services that have been received on credit and previously recorded with the Enter Bills function.

This function increases the Operating Expenditures account (account #700) and reduces the Committee Equity account (account #100) at the same time.

If you pay for goods or services with cash, you can still use this function to record the transaction. In this case, do not enter a check number.

In the main window, click on Transactions, Expenditures, Record Expenditure.

Contributing To Other Committees

Contribution limits apply to contributions to other committees

There are two different contribution limits for two distinct types of committees. A committee that is commonly referred to as a “PAC” (Political Action Committee) is actually a non-candidate committee, and gives at the lower limit. A “Super PAC” is a non-candidate committee certified by the Secretary of State to give at the upper limit. See A.R.S. § 16-905(A)(B) for contribution limits. The Secretary of State adjusts these limits biennially.

The requirements needed by a committee to be a Super PAC are listed in A.R.S. § 16-905(I). Copies of a Super PAC’s certification from the Secretary of State must accompany any contributions to other committees.

Contributions to other committees increase the Other Disbursements account (account #440). Entries to this account can be viewed and edited; see the section on Viewing and Editing Account Entries for instructions on how to accomplish this.

Loans, Repayments and Interest

According to A.R.S. § 16-906, loans are contributions to the extent that they are unpaid. Therefore, loans made to the committee by persons other than the candidate or his/her family members are subject to contribution limits as defined by A.R.S. § 16-905. Loans made to the committee by the candidate or his/her family members are subject to personal monies notification levels as outlined in A.R.S. § 16-905. The Secretary of State adjusts the limits and levels in this statute biennially. Consult the Campaign Finance Web page at http://www.azsos.gov/cfs/library.htm for current limits.

In the software there are four internal accounts that hold loan information. Loans from Candidate account (account #300), Loans from Other Sources account (account #310), Loans Made by Reporting Committee account (account #320), and Loan Interest account (account #420).

Entries to these accounts can be viewed and edited; see the section on Viewing and Editing Account Entries (page 31) for instructions.

Transfers of Funds

These transfer functions record transfers of funds from one committee to another that are not contributions. For instance, a committee may wish to transfer funds from a previous committee to a subsequent committee at any time during the election cycle, or two or more committees may host a joint fundraising effort and need to split the proceeds later.

Prompts in the transfer functions will ask the operator for the committee ID of the sending or receiving committee. If the committee does not have an ID issued by the Secretary of State, enter the ID issued by a local jurisdiction.

There are two accounts that hold transactions regarding transfers of funds: transfer to another committee account (account #600) and transfer from another committee account (account #610). Entries to these accounts can be viewed and edited; see the section on Viewing and Editing Account Entries (page 31) for instructions.
